Senior Portraits

JENNIFER BOWEN PHOTOGRAPHY

Welcome!

My name is Jennifer and I'm so thankful you are here! I started my photography company out of a love for my passion, which was to create beautiful portraits that capture something real and authentic about the person or people in them.

My style is relaxed, lifestyle portrait photography. I will definitely help pose you for some pretty portraits, but my goal is to also capture a few moments in between as well -- you know, those candid shots that capture something authentic and effortless, making you look as naturally beautiful as possible and in the moment :-)

A few things about me: I love spending time with my family, connecting with authentic & joyful friends, and sharing lots of belly laughs. I love yoga, my bare feet in the sand, a worn-in pair of blue jeans, a hot cup of coffee, and hugging my kiddos. Adventure runs in my blood, like skiing fast down a great mountain with music in my ears, and I love to travel -- BUT, I love coming home even more.

I'm so thankful that this is my job. That I get to capture connection and beauty, tell stories, and preserve moments in time for my clients through photography. Hopefully I'll get to connect with you and capture your unique vibe!

You are beautiful!

LOCATION LOCATION, LOCATION!

Jennifer knows tons of great spots for your session and will work with you to find a place that will fit you and the look(s) you are going for.

It's more than just a pretty backdrop though, we want gorgeous light most of all because that is where the portrait magic really happens!

Tip #1

Feel free to bring any props or items that represent who YOU are and what you like to do. We love to capture what makes you unique!

YOU
DO
YOU!

COLLECTION 1 - \$350

This is for those that just want a few great photos and 1-2 outfits.
Session is about 50 minutes (25 min per outfit give or take) in one location
(though we'll move around for different backdrops).

You'll receive the time & talent, styling tips and an online gallery of approximately 35-40 lightly retouched images. Plus, you'll pick your 5 favorite images from your gallery for download, and we'll make sure those images get an additional hand retouch full editing so you look flawless
(but still like you -- no scary over-editing done here!)

Dont worry, you can purchase more files beyond the included 5 if you want more for just \$40 per file.
(Those get fully retouched too)

COLLECTION 2 - \$575

This is for those who want more time, variety, and image options with 2-3 outfits captured.
The session will last about 1.5 hours and can include up to 2 locations, though typically one is enough since we'll walk around and hit different spots.

You'll receive the time & talent, styling tips and a gallery of approximately 50-70 lightly re-touched images. You'll pick your 10 favorite images to download/keep and those images will get the same hand retouching as noted above. You can add more files for just \$40 per file if you wish.

COLLECTION 3 - \$875

This is for those who want all the bells and whistles
and ALL the images from the session to keep and download.

The session can last up to 2 hours if you would like, 2 locations and up to 3 outfit changes.

Your gallery will include closer to 100 images and you can download them ALL
watermark free/high res/with printing rights.

What to wear!

Tip #2

The camera loves layers and accessories! Bring extra options for colors and styles so we can help pair together pieces that will look & feel great.

- Wear colors and clothing that flatter your skin and hair, and that you feel comfortable in
- Try everything on before the shoot and make sure you feel good in it and can move freely. Bring clean and pressed tops that lay well and don't buckle in places, or easily wrinkle.
- The camera loves layers! Jackets, vests, scarves, hats, sunglasses, jewelry, boots, etc., all photograph great.
- Avoid super low cut tops and very short skirts -- they can sometimes be hard to move in and may limit flattering posing options.
- Avoid strong patterns like heavy stripes, especially horizontal ones that can add weight. Stick with solids or minimal patterns near your face. Avoid heavy spray tans that can look orange in photos.
- Girls, wear a little more makeup than you normally do. We definitely recommend getting hair & makeup done for the shoot! Don't forget about clean or polished fingernails since they will show.

Prints & Products

•ADD ON DIGITAL FILES•

The whole session set - \$450 via immediate download
Individual files - \$40/file
Includes limited copyright release for personal printing

•GRADUATION ANNOUNCEMENTS•

Custom designed 5x7 two-sided cards
Customize your text & fonts
